Introduction

This is a guide to selected CSIRO governance and historical records digitised as part of the CSIRO History Project based in the Centre for Transformative Innovation at Swinburne University of Technology from 2016-2023. These records are now all managed by CSIRO.

The collection contains an impressive array of documents and research notes, largely assembled by the former CSIR/O Historian Professor Boris Schedvin, one of Australia's most distinguished economic and science historians. The collection was assembled to support Professor Schedvin's writing of a second volume to *Shaping Science and Industry* (Allen & Unwin, 1987) and provides a unique overview of the history of scientific research in Australia in the mid to late 20th century. These materials in the collection comprise internal CSIRO documents and papers, reports, publications, correspondence, reviews, etc. covering a wide range of scientific research areas and spanning from 1903 to 1996.

In July 2017, the CSIRO Board Meeting papers were added to this collection, comprising the records of the CSIRO Board (including agenda, minutes and papers) from the first inaugural CSIRO Board Meeting in December 1986 to the 145th Board Meeting in December 2007.

Between March and May 2018, a complete set of CSIR/O Annual Reports was also added to the collection as well as the records of the CISI and CSIR/O Executive (comprising minutes and papers) from Executive/Executive Committee meetings held between 1926 and 1996.

These records are all now managed by CSIRO. All queries relating to access should be made to:

About the records

Date Range 1903 - 2016

Extent 12.63 metres (1,268 items)

Administrative Information

All the materials in Series 1 - 38 of the collection were collected by or for Professor Boris Schedvin from the 1980s onwards. The CSIRO Board Meeting records in Series 39 were collected from the Office of the CSIRO Board in 2017.

- The collection is comprised of records from 93 accessions. The codes used to uniquely identify each accession range from CSHP2016-0001 to CSHP2016-0093.
- The records have been allocated to 45 series. The codes used to uniquely identify each series range from 0001 to 0045.
- The inventory covers 1,268 items, and may include records of continuing value, records sentenced for destruction and records that have been destroyed. The codes used to uniquely identify each inventory item range from C00000001 to P00001241. The total collection occupies 1,263 linear cm of shelf space (or its equivalent).
- The documentation of the records at inventory level started on 18 January 2017. The latest additions were made on 21 June 2018. The latest modifications were made on 5 July 2018. This collection profile was updated on 5 July 2018.

Scope and Content

This collection contains a broad range of material relating to CSIRO and its work in the mid to late 20th century. It comprises internal CSIRO documents and papers, reports, publications, correspondence, reviews, etc. spanning from 1903 to 2007. The structure of this finding aid has been designed to mirror the structure of Boris Schedvin's research, with the bulk of the series divided into separate research areas.

Series List and Summary Descriptions

Series 1 Boris Schedvin's Research Notes, Correspondence and Draft Manuscripts

This series contains a range of selected research material and writing by Professor Boris Schedvin regarding the history of CSIR/O. Included in the series are draft chapters from the second volume of *Shaping Science and Industry* with annotations and comments from a number of readers including Sir Frederick White, H. W. M. Lunney, P. J. Beck, C. Garrow, K. Whiteley, B. V. Fennessy, J. Coombe and G. A. Currie. Also included in the series is correspondence between Boris Schedvin and a number of CSIR/O staff regarding his research and writing. As well as this, the series contains miscellaneous research material, notes, interview transcripts, publications and papers collected by Boris Schedvin and his research assistant M. Samuel on a range of topics including: The history and evolution of CSIR/O; Wool research and protein chemistry; Agricultural research in Australia; The Secondary Industries; The papers of Sir Frederick White; The CSIRO Archive; and Allen & Unwin publishing material. This series offers a unique perspective on Boris Schedvin's writing and research processes, whilst also providing interesting insights into the evolution of CSIR/O and the experience of working within the organisation at different points in time, as described by Schedvin's numerous and varied correspondents.

Date Range: 1903 - 1989 **Quantity:** 53 Inventory items

Series 2 CSIRO Governance

This series contains a broad range of selected documents regarding the governance of CSIR/O. Included in the series are records relating to: The Science and Industry Act and the early evolution of CSIR; The organisation and management of Divisions and Sections within CSIR/O; Staffing and salary scales; Policy; Review Committee reports; Head Office organisation; CSIR/O Executive and Secretariat administration; The history and development of the CSIR/O Officers Association; Advisory Council minutes and reports regarding administrative matters; The formation and role of CSIR State Committees; Post-War organisation-wide planning; Technology Transfer; and more general publications on the history, management and structure of CSIR/O. Of particular interest in this series are the records on the wartime activities of CSIR and the relationship between science, government and defence. Also of interest are the post-War records regarding the changing research programs and policies across the Divisions, covering a range of areas including research on defence, entomology, the secondary industries, brown coal and ore dressing, building research and mechanical engineering.

Date Range: 1908 - 1985 **Quantity:** 49 Inventory items

Series 3 CSIRO Financial Records

This series comprises material regarding the finances of CSIR/O. Included in the series are financial estimates from across the CSIR/O Divisions and Sections; Annual expenditure reports and documents; Advisory Council and Executive Committee agenda papers and minutes regarding CSIR/O's funding and allocation of resources; Staff numbers and expenditure records; CSIR/O's research priorities; and the Science

and Industry Endowment Fund alongside various other funding grants and initiatives. Of particular interest in this series are the records relating to CSIR's financial stringency during The Great Depression; CSIR's financial arrangements during World War Two; and CSIR/O's post-war financial planning. These records offer a unique insight into the growth of CSIR/O, the changing political climate affecting the belief in the value and role of scientific research, and the changing focus on different research areas over time.

Date Range: 1926 - 1983 **Quantity:** 29 Inventory items

Series 4 CSIRO Divisional Annual Reports

This series comprises annual reports from numerous CSIR/O Divisions, Institutes and Research Committees as well as reports from The Australian Science and Technology Council (later to become the Australian Science, Technology and Engineering Council) and various scientific institutes of the Australian Government.

Date Range: 1926 - 1983 **Quantity:** 69 Inventory items

Series 5 CSIRO Advisory Council and Executive Council Agenda Papers

This series comprises agenda papers, minutes and reports from the CSIR/O Executive Committee and the CSIR/O Advisory Council from 1926 to 1985. These records shed light on the inner operations and planning within CSIR/O regarding a wide range of research areas, organisational and financial matters including: Research policies and evaluations across the Divisions; The organisational structure of CSIR/O; Staff recruitment and salaries; Defence research during World War Two; The relationship between CSIRO and the universities; The application of scientific research to industry; Post-war development plans; Financial estimates; and CSIRO's overseas aid programs.

Date Range: 1926 - 1985 **Quantity:** 22 Inventory items

Series 6 Sir Frederick White Papers

Sir Frederick White is one of the most influential figures in the history of Australian science and the history of CSIR/O during and after the Second World War. As Chief of the CSIR Division of Radiophysics and later as Executive Officer of CSIR, Sir Frederick White's fingerprints can be found over all aspects of the collection. In this series are biographical materials related to his life and work, as well as a range of papers, speeches, interviews and correspondence by and regarding Sir Frederick White, covering a broad range of scientific topics and positing Sir Frederick White as a central figure at the heart of the history of CSIRO.

Date Range: 1948 - 1986 **Quantity:** 6 Inventory items

Series 7 Sir Ian Clunies Ross Papers

Sir Ian Clunies Ross played an invaluable role in the development of CSIR/O as a scientist, administrator and public figure. His career with CSIR/O included being appointed as a parasitologist in 1926, Officer-in-Charge of the F. D. McMaster Animal Health Laboratory in 1929, CSIR Executive Officer from 1946 to 1949 and CSIRO Chairman from 1949 up until his death in 1960. The records in this series offer insights into the work of Sir Ian Clunies Ross during each of these periods, comprising a range of biographic publications alongside papers, speeches, lectures, correspondence and

notes by Sir Ian Clunies Ross himself, especially regarding the role of CSIR/O and the need for developing scientific research in Australian universities.

Date Range: 1936 - 1977 **Quantity:** 6 Inventory items

Series 8 Sir David Rivett Papers

Sir David Rivett was the Chief Executive Officer of CSIR from 1927 to 1945 and Chairman from 1945 to 1949. Like Sir Frederick White and Sir Ian Clunies Ross, the hand of Sir David Rivett can be seen in records across the collection, with Rivett being largely responsible for the growth of CSIR in its formative years and for shaping CSIR into a strong and effective scientific research institution that played a major role in Australia's economic and industrial development. This series contains correspondence, papers, and speeches by Sir David Rivett on a range of topics but especially regarding the role of CSIR and the importance of basic scientific research in the 20th century.

Date Range: 1927 - 1977 **Quantity:** 4 Inventory items

Series 9 Northern Development and the Ord River Project

This series comprises an extensive collection of records regarding agricultural development in Northern Australia, charting the agricultural expansion work of CSIRO in the mid to late 20th century. A particular focus of the series is the Ord River Irrigation Scheme (including planning and evaluation documents alongside external criticisms of the project) as well as records regarding the research programs at the Katherine Research Station, Kimberley Research Station and Coastal Plains Research Station by the CSIRO Land Research and Regional Survey Section (later to become the Division of Land Research) and the CSIRO Division of Tropical Crops and Pastures.

Date Range: 1930 - 1984 **Quantity:** 32 Inventory items

Series 10 Wool Research

This series contains a broad range of records documenting the evolution of wool research programs and policies at CSIR/O over time. Materials in the collection include reports, papers, proposals, publications and planning documents for the research programs of the CSIRO Wool Textile Research Laboratories and the later CSIRO Divisions of Textile Physics, Textile Industry and Protein Chemistry. With records charting the development of wool production and measurement techniques in Australia, this series offers a unique insight into one of the primary research focuses of CSIR/O in the 20th century. Of particular interest in this series is the material on the work of Menzie Lipson, Officer-in-Charge of the Geelong Wool Textile Research Laboratory from 1950 to 1958 and foundational Chief of the Division of Textile Industry from 1958 to 1976. Included in these records are a transcript of an interview between Menzie Lipson and Boris Schedvin from 1981, discussing Lipson's experience working with CSIRO.

Date Range: 1928 - 1988 **Quantity:** 52 Inventory items

Series 11 Animal Health, Nutrition and Physiology

This series comprises records primarily from the CSIR/O Divisions of Animal Genetics, Animal Health and Production, Tropical Animal Science, Animal Physiology and the Animal Research Laboratories. The records offer insight into the history and development of each of these divisions. The material addresses a wide range of animal-related research areas including: Sheep genetics; Breeding research; Poultry programs; Beef programs; Wool production investigations; and various animal health problems and diseases.

Date Range: 1919 - 1984 **Quantity:** 28 Inventory items

Series 12 Plant Industry and Tropical Pastures Research

This series contains records attaining to plant industry and tropical pastures research conducted at the CSIR/O Divisions of Tropical Pastures, Tropical Crops and Pastures, Land Research, Soils and Tropical Agronomy from the 1920s to the 1980s. Items in the series include agenda papers, correspondence, financial records and planning documents for future research programs. Topics covered by these records include the history, organisation and development of each of these CSIR/O Divisions as well as material on: Medicinal plant research during World War Two; Tobacco research; Noxious weeds and poison plants research; and Agronomy and Agrostology research.

Date Range: 1926 - 1984 **Quantity:** 25 Inventory items

Series 13 Minerals Research

This series contains reports, reviews, proposals, correspondence and planning documents relating to minerals research at CSIR/O. Included in this series are records from the Divisions of Applied Mineralogy and Chemical Engineering regarding Ore Dressing and Mineragraphic Investigations in Western Australia as well as records on geophysical prospecting in Australia and the National Geographic Survey. Other material in the series include documents on trace elements and mineral deficiencies research in plants, animals and soils at the Divisions of Animal Nutrition, Biochemistry and General Nutrition. Many items in the series also offer a broader analysis of the history and development of mineral sciences research in CSIR/O, charting the evolving research programs of the aforementioned CSIR/O Divisions.

Date Range: 1926 - 1984 **Quantity:** 12 Inventory items

Series 14 Secondary Industries Research

This series comprises records regarding the relationship between CSIR/O and the Secondary Industries, especially post-World War Two. Topics covered include the importance of developing the Secondary Industries in Australia as well as CSIR/O's Secondary Industries research programs, policies and activities in regard to such areas as reference standards, technology transfer, licensing and the Research Liaison Section within CSIRO.

Date Range: 1936 - 1985 **Quantity:** 13 Inventory items

Series 15 The Information Service

This series comprises material on the history of the Scientific Liaison Bureau and the CSIR/O Information Service. These records show the early activities and aims of the Bureau, its amalgamation with CSIR during World War Two and the later evolution of

the CSIR Information Section into the Central Information, Library and Editorial Section (CILES). The records contain a variety of articles, correspondence, reports, Executive Council minutes and notes.

Date Range: 1920 - 1976 **Quantity:** 6 Inventory items

Series 16 Atomic Energy Research

This series comprises records on atomic energy and nuclear physical research at the CSIR/O Divisions of Industrial Chemistry and Physics, especially during World War Two. Containing a range of articles, reports, correspondence and notes, these records address the following areas: The Atomic Energy Act of 1946; The building of a Cyclotron and Gleep; Tube alloys; Uranium ore; Proposals for an Atomic Physics Laboratory at the University of Melbourne; and more broadly, Australian interests in developing atomic and nuclear physical research.

Date Range: 1944 - 1980 **Quantity:** 3 Inventory items

Series 17 Radiophysics Research

This series contains material on radiophysics research at CSIR/O. It includes records on the history, development and research programs of the CSIR/O Division of Radiophysics, the Australian Radio Research Board and the CSIR Radiophysics Laboratory. Of particular interest in the series are the records on David Forbes Martyn (Chief of the Division of Radiophysics from 1940 to 1941, Chief Scientific Officer of the Radio Research Board from 1944 to 1958 and Officer-in-Charge of the Upper Atmosphere Section from 1958 to 1970). The material on Martyn includes the enquiry into his affiliation with the German born Mrs Ella Horne in 1941; His radiophysics work with CSIR/O; And the various problems he had working with CSIR/O and with his mental health). Other topics addressed in the series include: R. D. F. research and equipment; CSIR/O's purchase of the Mills Cross Radio Telescope; Ionospheric investigations; Enquiries into the Darwin Bombing; The Kaiser Affair; Problems with T. H. Laby and L. H. Martin; and W. F. Evans writing on the history of the CSIR Radiophysics Advisory Board. A large series, these records show a multitude of facets to the history of radiophysics research at CSIR/O, examining the numerous difficulties faced by the Division and CSIR/O in general both during and after World War Two.

Date Range: 1926 - 1985 **Quantity:** 45 Inventory items

Series 18 Electrotechnology, Metrology and the National Standards Laboratory

This series contains material on the National Standards Laboratory, established in 1939 and comprising the Electrotechnology, Metrology and Physics Sections of CSIR. The records chart the history, development and research programs of each of these sections, and the continued activities at the Laboratory after 1945 once they became Divisions. Included in the records are a range of reports, planning documents, correspondence and legislation.

Date Range: 1926 - 1974 **Quantity:** 8 Inventory items

Series 19 Industrial Chemistry Research

This series contains records on the history and development of Industrial Chemistry research at CSIR/O, including material regarding research into: Water evaporation reduction; Synthetic polymers; Mineral resources; Rubber; Cement; Diffraction grating ruling; etc. Of particular interest in the series are the papers and diary entries of Sir Ian William Wark; Interview transcripts and correspondence from Lloyd Rees; Papers by Alan Walsh on Atomic Absorption Spectra and science innovation in Australia.

Date Range: 1938 - 1992 **Quantity:** 26 Inventory items

Series 20 Soils Research

This series comprises records on soils research at the CSIR/O Divisions of Soils, Land Research and Applied Geomechanics, and from the Waite Agricultural Research Institute and Land Resources Laboratory. Containing material on research programs and organisation, these records include reports, Advisory Council and Executive Council minutes, correspondence and various planning documents. Aside from the development of research programs, other topics covered include: Soil mechanics research; The development of soil survey and field pedology in Australia; Aerodrome surfacing; etc.).

Date Range: 1926 - 1973 **Quantity:** 5 Inventory items

Series 21 Dairy Research

This series contains records on the history, organisation and research programs at the CSIR/O Dairy Research Section (later to become the Division of Dairy Research). Included in the records are Advisory Council papers, staffing application documents, research proposals, memorandums, journal articles, press releases, Executive Committee and Advisory Council minutes and the CSIRO Food Research Quarterly 50 year anniversary publication.

Date Range: 1926 - 1976 **Quantity:** 2 Inventory items

Series 22 Aeronautics and Defence Research

This series contains records on aeronautical and defence research at the CSIR/O Division of Aeronautics and the Defence Standards Laboratories in collaboration with the Australian Army and The Royal Australian Airforce. In particular, the records cover the research programs during and after World War Two on areas such as: Guided missiles; Tropic proofing; Aircraft design, production and engine testing; The responsibility for Defence Science; and the need for defence research security and confidentiality during wartime. The records comprise a range of correspondence, memorandums, minutes, reports, notes, agenda papers and planning documents that together offer an interesting perspective on the changing programs and policies regarding scientific defence research in Australia and attitudes towards the security of scientific research.

Date Range: 1936 - 1983 **Quantity:** 5 Inventory items

Series 23 Australian Science Policy

This series contains material on the history of Australian science policies, including records on: The 1949 Science and Industry Act; The establishment and development of Australia's National Science Policy in the 1960s and 1970s; Proposals for an Australian Science Council; The development of the Australian Government Department of Education and Science; And the history of the Australian Academy of Science and their work with CSIRO. Included in the series are reports, minutes, planning documents, proposals, agenda papers, journal articles, book chapters, correspondence and parliamentary papers. Combined, these records offer a unique overarching view of the growth of scientific research in Australia and the expansion of CSIR/O over time.

Date Range: 1929 - 1996 **Quantity:** 38 Inventory items

Series 24 Food Preservation and Food Research

This series contains records on food preservation and food research at CSIR/O, including material on the research programs and organisation of the CSIR/O Food Preservation and Transport Section (later to become the Division of Food Preservation and Transport, the Division of Food Preservation and then the Division of Food Research). Particular areas of interest in the records include: The history of food research in Australia; The life and work of James Richard Vickery (Officer-in-Charge of the Section and later Chief of the Division of Food Preservation and Transport); Citricultural and Viticultural investigations in the Mildura and Murrumbidgee areas; Plant disease research; Cold storage investigations; And War-time food preservation investigations. The records comprise a range of reports, correspondence, notes, memorandums, planning documents, proposals and journal articles.

Date Range: 1919 - 1977 **Quantity:** 14 Inventory items

Series 25 Fisheries, Oceanography and Marine Science Research

This series contains records on fisheries, oceanography and marine science research at the CSIR/O Division of Fisheries (later to become the Division of Fisheries and Oceanography). The contents of the records cover a range of areas including: The history, organisation, management and research programs of the Division; The CSIRO's acquisition of a Fisheries Research Vessel; Agar production research; Whaling investigations; The development of the Australian Fishing Industry; etc.

Date Range: 1927 - 1980 **Quantity:** 6 Inventory items

Series 26 Computing, Mathematical and Statistical Research

This series contains material from and regarding the CSIR/O Divisions of Computing Research and Mathematical Statistics. The records offer insight into the development of computing and mathematic research from the 1950s to the 1970s and show the history of CSIRO's computing network. Records include minutes, agenda papers, correspondence, memorandums, reviews and proposals.

Date Range: 1948 - 1973 **Quantity:** 3 Inventory items

Series 27 Space Research

This series comprises records on space research at the CSIRO Upper Atmosphere Section in collaboration with the Radio Research Board, NASA and The Australian Academy of Science. Included in the records are minutes, memorandums and correspondence regarding proposals for the space research program at CSIR/O.

Date Range: 1959 - 1985 **Quantity:** 1 Inventory items

Series 28 Agricultural Extension Work

This series contains records on agricultural extension work conducted at CSIR/O, particularly post-World War Two. Topics addressed include: Staff appointments and research programs at the Griffith Research Station; The life and work of Richard Reginald Pennefather (Officer-in-Charge of the CSIRO Soils and Irrigation Extension Service, organiser of the Murrumbidgee Irrigation Area Agricultural Extension Service and later the Officer-in-Charge of the Agricultural Research Liaison Section); The value and development of agricultural research in Australia; and the history of agricultural extension work by CSIRO. Records comprise a range of correspondence, reviews, journal articles, book chapters, proposals, minutes and reports.

Date Range: 1927 - 1985 **Quantity:** 8 Inventory items

Series 29 Tribophysics, Lubricants and Bearings Research

This series contains material on the history, development and research programs of the CSIR Lubricants and Bearings Section and the CSIR/O Physical Metallurgy Section (later to become the Division of Tribophysics and the Division of Materials Science). The records explore the following areas: Photocell Chronometer investigations; Field Gun Testing; Muzzle Velocity research; Aero engine bearings research; Cylinder wear investigations; and the work of Stewart Henry Bastow (Officer-in-Charge of the Lubricants and Bearings Section, member of the CSIRO Executive and later Chief Executive Officer of CSIRO from 1957 to 1959).

Date Range: 1939 - 1985 **Quantity:** 8 Inventory items

Series 30 International Science Organisations

This series contains material on various international science organisations, including their structure, management, staffing, policies, and key areas of research. A heavy focus of the records is on cooperation and collaboration between CSIR/O and these other organisations, including NASA in the United States, The Department of Scientific and Industrial Research and the National Engineering Laboratory in the United Kingdom, The Max Planck Society and The Imperial Institute of Physics and Technology in Germany, etc. Also included in the series is material on the history, development and work of the Empire Marketing Board as well as material on CSIR/O's international aid programs.

Date Range: 1927 - 1985 **Quantity:** 10 Inventory items

Series 31 Meteorology, Atmospheric Physics and Cloud Research

This series contains records on meteorological, atmospheric and cloud physics research at the CSIR/O Division of Cloud Physics and the Meteorological Physics Research Section (later to become the Division of Meteorological Physics, the Division of Atmospheric Physics and the Division of Atmospheric Research). As well as

exploring the history, development and research programs of each of these sections/divisions, other topics addressed in the records include: The structure and manipulation of clouds and ice crystals; Coalescence Theory; Cloud seeding; The life and work of Charles Henry Brian Priestley (Chief of the Division of Meteorological Physics from 1946 to 1973).

Date Range: 1938 - 1985 **Quantity:** 10 Inventory items

Series 32 Pest Control, Wildlife and Ecology Research

This series contains records regarding the history, development and research programs of the CSIRO Wildlife Survey Section (later to become the Division of Wildlife Research). Topics addressed include pest and wildlife control (Rabbits, Dingos, Kangaroos, Blowflies and Birds) as well as more general ecological research and aerial survey design plans, comprising a range of reports, correspondence, memorandums, newspaper articles, journal articles, proposals and agenda papers. Of particular interest in the series are the records on Sir Macfarlane Burnett, Sir Ian Clunies Ross and Professor Frank John Fenner's voluntary inoculation with the Myxomatosis Virus in 1951.

Date Range: 1918 - 1984 **Quantity:** 12 Inventory items

Series 33 CSIRO and the Universities

This series contains material on the links between CSIRO and Australian universities. A heavy focus of the records is on the role and importance of this collaboration, as well as records outlining the development of the CSIRO Studentship Scheme. Included in the records are a range of reports, reviews, proposals, correspondence, journal articles, etc.

Date Range: 1919 - 1975 **Quantity:** 6 Inventory items

Series 34 Fuel and Coal Research

This series contains records on fuel and coal research conducted at the CSIRO Coal Research Section (later to become the Division of Coal Research) and in collaboration with the Divisions of Industrial Chemistry and Mineral Chemistry. Topics addressed in the records include: The history and development of coal and fuel research in Australia; The evolution of the Coal Research Section and its changing research program; Coal ash and dust research; Liquid fuel research; The development of the Fuels Utilisation Research Program; Cooperation and challenges between CSIRO and the Standards Association in developing standards for coal and coke; etc. Records include a range of reports, reviews, proposals, correspondence, agenda papers and memorandums.

Date Range: 1920 - 1984 **Quantity:** 11 Inventory items

Series 35 Building Research

This series comprises material on the CSIRO Division of Building Research, particularly their post-World War Two activities. Included in the series are records on: The work of

Ian Langlands (Chief of the Division from 1944 to 1971); Building and Civil Engineering Research in Australia; And the development of the research program and policies within the Division of Building Research. Records include correspondence, memorandums, proposals, minutes, journal articles, reviews, etc.

Date Range: 1931 - 1983 **Quantity:** 4 Inventory items

Series 36 Entomological Research

This series contains records on entomological research at the CSIRO Division of Economic Entomology (later renamed to the Division of Entomology) particularly in the inter-war years and during World War Two. Topics addressed in the records include: The life and work of Robin John Tillyard (Chief of the Division of Economic Entomology from 1928 to 1934); The history and development of the research program at the Division of Entomology; The Buffalo Fly Problem; Weevil Investigations; Wheat storage and treatment research; etc.). Records include a range of reports, correspondence, agenda papers, proposals and journal articles.

Date Range: 1926 - 1976 **Quantity:** 6 Inventory items

Series 37 Forest Products Research

This series contains records on the research conducted at the CSIRO Division of Forest Products. Topics include: The history and development of the Division and its affiliated Timber Mechanics Section; The changing research program of the Division; Research on the use of wood in aircrafts; Jute substitutes research; Flax processing research; Paper pulp investigations; And research on wood durability, preservation and use in Australia. These records comprise a range of reports, reviews, proposals, correspondence, notes, memorandums, journal articles, etc.

Date Range: 1920 - 1971 **Quantity:** 8 Inventory items

Series 38 Human Health and Nutrition Research

This series contains material on the history and development of the Commonwealth Serum Laboratories and medical research within CSIRO in the 1960s and 1970s. Records include parliamentary papers, newspaper articles, reports, book chapters and correspondence.

Date Range: 1961 - 1977 **Quantity:** 2 Inventory items

Series 39 CSIRO Board Meeting Agenda and Papers

This series contains the records of the CSIRO Board from the first inaugural Board Meeting in December 1986 to the 145th Board Meeting in December 2007. Also included in the series are records from various Workshops and Special Meetings of the CSIRO Board. Material in the series includes agenda, minutes, papers, reports, memos

and correspondence. Combined, these records offer an interesting insight into CSIRO governance in the late 20th and early 21st Century, and help document the history of CSIRO and scientific research in Australia.

Date Range: 1986 - 2007 **Quantity:** 239 Inventory items

Series 40 CISI and CSIR Executive Records : Meetings 1 - 723 (1926 - 1949)

This series contains the minutes and papers from the meetings of the Commonwealth Institute of Science and Industry Executive Committee (1926) and the CSIR Executive Committee (1926-1949). The series contains records from meetings no. 1-569 and 586-721 (Note: Meetings 570-585 are currently missing).

Date Range: 1926 - 1949

Series 19 - Industrial Chemistry Research

Inventory Listing

- **Post-War Division of Industrial Chemistry Part 1**

CSIRO File

Includes original file cover.

Makes reference to: Division of Industrial Chemistry; S. H. Bastow; I. W. Wark; CSIRO Advisory Council; N. S. Bayliss

Subject: The organisation and research program of the Division of Industrial Chemistry

Control YAI/590/2; KB2/53a; YAI/590/1;
Date range 1949 - 1958 Quantity 1 cm, 1 Folder
Inventory Identifier C00000074 Series 19

- **Post-War Division of Industrial Chemistry Part 2**

CSIRO File

Makes reference to: Division of Chemical Physics; A. L. G. Rees

Subject: The organisation and research program of the Division of Chemical Physics

Control YAI/582/3;
Date range 1958 - 1963 Quantity 0.2 cm, 1 Folder
Inventory Identifier C00000075 Series 19

- **Post-War Division of Industrial Chemistry Part 3**

CSIRO File

Makes reference to: Division of Organic Chemistry; J. R. Price; I. W. Wark

Subject: The organisation and research program of the Division of Organic Chemistry

Control KX5/8; KX5/9; YAI/606/2; YAI/586/1;
Date range 1960 - 1966 Quantity 1 cm, 1 Folder
Inventory Identifier C00000076 Series 19

- **Post-War Division of Industrial Chemistry Part 4**

CSIRO File

Wark, I. W. (1961) Exploitation of Australia's Mineral Resources: Dr. I. W. Wark's Address to The Royal Society of Victoria on Thursday 8th June 1961.

Makes reference to: Division of Mineral Chemistry; Bureau of Mineral Resources; I. W. Wark

Subject: The evolution of the mineral industry in Australia

Date range 1961 Quantity 0.2 cm, 1 Folder
Inventory Identifier C00000077 Series 19

- **Report on Chemical Engineering Within CSIRO**

CSIRO File

Bradshaw, A. V. (1973) Report on Chemical Engineering Within C.S.I.R.O. Clayton, VIC: CSIRO.

Makes reference to: A. V. Bradshaw; Division of Chemical Engineering; Minerals Research Laboratories; T. H. Blakeley

Subject: The history, organisation, policies and research programs of the Division of Chemical Engineering

Control YAI/608/3 part 1;
Date range 1973 Quantity 1 cm, 1 Folder
Inventory Identifier C00000137 Series 19

- **CSIRO Division of Chemical Engineering Documents**

CSIRO File

Makes reference to: Division of Chemical Engineering; CSIRO Executive; H. R. C. Pratt; I. W. Wark

Subject: Redefining the work program of the Division of Chemical Engineering

Control YAI/608/3; YAI/608/1;
Date range 1961 - 1967 Quantity 0.5 cm, 1 Folder
Inventory Identifier C00000182 Series 19

- **Sir Ian Wark Diary Material**

CSIRO File

Includes original file cover.

Makes reference to: Division of Industrial Chemistry; I. W. Wark

Subject: Sir Ian Wark's diary notes on the Division of Industrial Chemistry 1943-1960; Sir Ian Wark's Address to members of staff 1943

Date range 1943 - 1961 Quantity 1 cm, 1 Folder
Inventory Identifier C00000281 Series 19

- **Sir Ian Wark Papers Part One**

CSIRO File

Makes reference to: Division of Industrial Chemistry; I. W. Wark

Subject: Sir Ian Wark's papers on the development of the Division of Industrial Chemistry

Control AG2/9;
Date range 1945 - 1987 Quantity 1 cm, 1 Folder
Inventory Identifier C00000282 Series 19

- **Sir Ian Wark Papers Part Two**

CSIRO File

Makes reference to: Division of Industrial Chemistry; CSIRO Executive; A. R. Alderman

Subject: Division of Industrial Chemistry reports (mainly regarding cement investigations and reducing water evaporation)

Control CE3/1; MC; AG1/1;
Date range 1946 - 1961 Quantity 1 cm, 1 Folder
Inventory Identifier C00000283 Series 19

- **Synthetic Polymer Research in CSIRO**

CSIRO File

Includes original file cover.

Makes reference to: Division of Applied Organic Chemistry; D. H. Solomon

Subject: Synthetic Polymer Research in CSIRO

Date range 1976 Quantity 1 cm, 1 Folder

Inventory Identifier C00000427 Series 19

- **CSIR Division of Industrial Chemistry: World War Two Part One**

CSIRO File

Includes original file cover.

Makes reference to: Division of Industrial Chemistry; A. L. G. Rees; I. W. Wark; A. Walsh

Subject: History and development of the CSIR Division of Industrial Chemistry; Research investigations at the CSIR Division of Plant Industry during World War Two

Control VM9/19;

Date range 1942 - 1979 Quantity 1 cm, 1 Folder

Inventory Identifier C00000441 Series 19

- **CSIR Division of Industrial Chemistry: World War Two Part Two**

CSIRO File

Makes reference to: Division of Industrial Chemistry; G. A. Cook; E. J. Drake

Subject: Proposal for the establishment of the Division of Industrial Chemistry; Early proposed research programs for the Division of Industrial Chemistry

Control YAI/730/6; G4/5; PH3; P2/5;

Date range 1938 - 1942 Quantity 1 cm, 1 Folder

Inventory Identifier C00000442 Series 19

- **CSIR Division of Industrial Chemistry: World War Two Part Three**

CSIRO File

Makes reference to: Division of Industrial Chemistry; I. W. Wark; J. J. Dedman

Subject: Rubber Research at the Division of Industrial Chemistry during World War Two

Control G30/2; VM9/19;

Date range 1942 - 1943 Quantity 1 cm, 1 Folder

Inventory Identifier C00000443 Series 19

CSIRO File

Encel, S. (1970) Science, Discovery and Innovation: An Australian Case History. International Social Science Journal v. xxii (1) pp. 42-53.

Makes reference to: A. Walsh; Division of Chemical Physics

Subject: Atomic Absorption Spectroscopy research at the Division of Chemical Physics

Date range 1970 Quantity 0.2 cm, 1 Folder
Inventory Identifier C00000552 Series 19

- **"The Development of Atomic Absorption Spectroscopy" Thesis by Mary Carseldine**
CSIRO File

Includes original file cover.

Makes reference to: Division of Chemical Physics; M. Carseldine

Subject: Mary Carseldine's thesis "The Development of Atomic Absorption Spectroscopy" (pp. 8-160) and related correspondence

Date range 1984 - 1992 Quantity 1 cm, 1 Folder
Inventory Identifier C00000555 Series 19

- **Lloyd Rees Papers, Interview Notes and Transcript by M. Samuel**
CSIRO File

Includes original file cover.

Makes reference to: Division of Chemical Physics; A. L. G. Rees

Subject: Interview of A. L. G. Rees by M. Samuel on 7th December 1985; Division of Chemical Physics draft report of the Program Review Committee; Papers and reports by A. L. G. Rees

Date range 1970 - 1985 Quantity 1.5 cm, 1 Folder
Inventory Identifier C00000556 Series 19

- **Lloyd Rees Correspondence to Frederick White 1952 and 1953**
CSIRO File

Includes original file cover.

Makes reference to: Division of Industrial Chemistry; Sir Frederick White; A. L. G. Rees

Subject: Lloyd Rees Correspondence to Sir Frederick White regarding The Australian Academy of Sciences and scientific instrumentation; Lloyd Rees interview transcript excerpt by M. Samuel on 7th December 1985

Control F11; A64/1/
Date range 1952 - 1985 Quantity 0.5 cm, 1 Folder
Inventory Identifier C00000557 Series 19

- **Correspondence and Excerpts From Mary Carseldine's Thesis "The Development of Atomic Absorption Spectroscopy"**
CSIRO File

Includes original file cover.

Makes reference to: Division of Chemical Physics; M. Carseldine

Subject: Correspondence between M. Samuel and M. Carseldine regarding her thesis; Excerpts from M. Carseldine's thesis "The Development of Atomic Absorption Spectroscopy" with notes by M. Samuel

Date range 1984 - 1985 Quantity 0.5 cm, 1 Folder

CSIRO File

Includes original file cover.

McNeill, J.J. (1974) Diffraction Grating Ruling in Australia, Part II. Records of the Australian Academy of Science v. 3(1) pp. 31-51.

Makes reference to: Division of Chemical Physics

Subject: The Davies-Stiff Diffraction Grating Ruling Engines

Date range 1974 Quantity 0.2 cm, 1 Folder
Inventory Identifier C00000562 Series 19

- **The Development of the Atomic Absorption Spectrophotometer by A. Walsh**
CSIRO File

Includes original file cover.

Makes reference to: Division of Chemical Physics; A. Walsh

Subject: Draft paper by A. Walsh on the development of the Atomic-Absorption Spectrophotometer

Date range 1976 Quantity 0.2 cm, 1 Folder
Inventory Identifier C00000563 Series 19

- **Alan Walsh Documents**
CSIRO File

Includes original file cover.

Makes reference to: Division of Industrial Chemistry; Division of Chemical Physics; Chemical Physics Section; A. Walsh

Subject: Papers by A. Walsh regarding atomic absorption spectra and science innovation in Australia

Date range 1950 - 1980 Quantity 1 cm, 1 Folder
Inventory Identifier C00000564 Series 19

- **Finding Aid to The Papers of Sir Ian William Wark**
CSIRO File

Includes original file cover.

Makes reference to: Division of Industrial Chemistry; Chemical Research Laboratories; CSIRO Executive; I. W. Wark

Subject: Finding Aid to the papers of Sir Ian William Wark (1899-1985) listed by Gavan McCarthy in 1985

Date range 1985 Quantity 0.5 cm, 1 Folder
Inventory Identifier C00000565 Series 19

- **Correspondence from Ian Wark to John Willis**
